HOURS	LIVE SESSIONS	MODULES + LABS	END-TO-END CAPSTONE

1) Introduction

Welcome to the **Oracle HRO Enterprise Enablement Program**. This 32-hour instructor-led program builds the capability to configure, restructure, secure and support **Oracle Fusion Cloud HCM** for multi-entity, multi-country workforces, through a concept-plus-demonstration-plus-hands-on-lab approach.

The journey starts with **Core HR foundations** (enterprise structures, legal entities, workforce structures, people management and employment processes), moves into **organizational restructuring and workforce management** (legal entity consolidation, department hierarchies, position management, mass updates), then **employee lifecycle and global mobility**, followed by **security and access management** (role-based access, data roles, country and legal-employer security, troubleshooting), and closes with **downstream impact assessment** across Payroll, Benefits, Time & Labor, integrations and reporting, finishing with an end-to-end capstone case study.

This orientation guide is your central reference for the platforms, resources and communication channels used during the training. Please review each section and keep it handy throughout the program.

Delivery Framework

5 · Downstream Impact Assessment & Case Studies	4 hrs	S11 – S12	Protect Payroll, Benefits and reporting integrity end to end
Total	**32 hrs**	**12 sessions**	

2) Daily Session Rhythm

Every session follows the same **Explain – Demonstrate – Practise – Validate** rhythm, so you always know what comes next. Sessions 9–12 run 30 minutes longer, with the extra time going mostly to demonstration and hands-on lab blocks.

Sessions 1–8 · 2.5 hours (6:30 – 9:00 PM IST)

Time (IST)	Block	What happens
6:30 – 7:10	**Concept & Explain** (40 min)	Concepts, Oracle design and the "why" behind each setup
7:10 – 7:55	**Demonstration & Guided Lab** (45 min)	Trainer demonstrates in the HCM environment, then you follow along
7:55 – 8:05	**Break** (10 min)	Stretch break
8:05 – 8:40	**Hands-on Lab & Scenario Challenge** (35 min)	Independent lab; trainer supports each participant
8:40 – 9:00	**Q&A, Review & Knowledge Check** (20 min)	Answer walkthrough, short quiz and next-session preview

Sessions 9–12 · 3 hours (6:30 – 9:30 PM IST)

Time (IST)	Block	What happens
6:30 – 7:15	**Concept & Explain** (45 min)	Concepts, Oracle design and the "why" behind each setup
7:15 – 8:10	**Demonstration & Guided Lab** (55 min)	Trainer demonstrates in the HCM environment, then you follow along
8:10 – 8:20	**Break** (10 min)	Stretch break
8:20 – 9:10	**Hands-on Lab & Scenario Challenge** (50 min)	Security, impact-assessment and capstone work
9:10 – 9:30	**Q&A, Review & Knowledge Check** (20 min)	Answer walkthrough, short quiz and next-session preview

3) Training Repository

Lab guides, sample data sets, workbooks and reference material are hosted in a central repository, released session by session. Lab evidence (screenshots, outputs) is submitted to your team folder.

- **Repository Link:** Will be shared with participants before Session 1

Guidelines

- Download the available material before Session 1.

- Check for new material before each session; lab assets are released session by session.
- Upload lab evidence to your team folder by the end of each session.

4) Communication Channel

Official communication takes place on a dedicated channel: announcements, doubt clarification, session feedback links and lab support.

- **Channel Invite:** Will be shared with participants before Session 1

Guidelines

- Join the channel before Session 1 and post a short hello.
- Use the lab-support thread for environment issues and the Q&A thread for content questions; mention your team.
- Keep communication professional; never post passwords or real employee data.

5) LMS Platform

The Learning Management System hosts course content, session recordings (where permitted), quizzes and additional resources for revision.

- **LMS Access Link:** Will be shared with participants before Session 1

Guidelines

- Log in after every session to access materials and complete the knowledge check.
- Use reference material for revision and self-paced learning.

6) Oracle Fusion Cloud HCM Lab Environment

The lab is ready. A dedicated Oracle Fusion Cloud HCM environment has been prepared for this program so that every hands-on exercise can be run live. Each participant receives an individual named user, and work is organised by team so that results stay separate.

Environment URL	Will be shared with participants before Session 1
Your user name	Shared individually before Session 1
Your team	Assigned at kick-off; used for lab evidence and the capstone
Credentials	Shared individually before Session 1

Guidelines

- Sign in and change your temporary password before Session 1; report any sign-in issue on the lab-support thread no later than Monday, 26 October.
- Use Google Chrome (recommended) or Microsoft Edge, latest version, with pop-ups allowed for the environment URL.
- Ensure stable broadband (minimum 10 Mbps); you will run the lab and Teams at the same time.
- If you are on a corporate network or VPN, make sure Oracle Cloud domains (*.oraclecloud.com) are reachable.
- For the data-loading labs in Sessions 4–7 (HCM Data Loader / HSDL), keep Microsoft Excel and a text editor available on your laptop.
- Work only in your own team's data. Shared configuration is changed only by the trainer.

- All people, names and identifiers in the lab are synthetic. Never enter real employee data.

7) Pre-Training Checklist

Please complete these before **6:30 PM IST on Tuesday, 27 October 2026**:

- ☐ Joined the communication channel and the LMS.
- ☐ Downloaded the available repository material.
- ☐ Completed the 25-question pre-assessment (about 30 minutes, baseline only).
- ☐ Signed in to the lab environment with your named user and changed the password.
- ☐ Can open the Person Management work area and search for a worker.
- ☐ Tested the Teams link, microphone and screen sharing.
- ☐ Confirmed Chrome/Edge, network access to *.oraclecloud.com and Excel on your laptop.

8) Training Attendance

Attendance is tracked every session and is mandatory for successful completion and certification.

- **Attendance Sheet:** Will be shared with participants before Session 1

Guidelines

- Mark your attendance at the start of each session.
- Ensure your name and team are entered accurately.
- Regular attendance is required for certificate eligibility.

9) Training Channel & Session Schedule

Participants join live sessions on Microsoft Teams.

- **Program:** Oracle HRO Enterprise Enablement Program (Oracle Fusion Cloud HCM)

10) Assessment

Learning is validated continuously, not just at the end:

Component	When	What it measures
Pre-assessment	Before Session 1	25-question baseline of HR and Oracle HCM prerequisites; not a pass/fail test
Daily knowledge checks	End of every session	Short quiz on the day's topics
Lab validation	Every module	Trainer checks lab evidence for each team
Mid assessment	After Session 7	Modules 1–2 (Core HR, restructuring and workforce management)
Final assessment	After Session 12	Modules 1–5
Capstone case study	Session 12 (in teams)	End-to-end scenario: a client acquires a company. Restructure, secure and assess downstream impact across Payroll, Benefits, Time & Labor, integrations and reporting

11) Feedback Form

Your feedback helps us tune the pace and depth of the program as we go.

- **Feedback Form Link:** Shared after each session on the communication channel and during the session

Guidelines

- Provide honest, specific and constructive feedback.
- Submitting feedback after each session is mandatory.
